

January, 2016

## *International Centre for Research on the Environment & the Economy NEWSLETTER*

---

### From the Editor

Dear [ICRE8](#) friends,

Welcome to the second newsletter of our research center!

Six months have past since our very first newsletter and I am happy to share with you our latest research activities, projects, team publications, meetings and events.

I want to thank our researchers and colleagues that contributed to the production of another newsletter which I hope that you will enjoy and appreciate once more. Thank you all for sharing your comments, suggestions and feedback. We are looking forward to your thoughts on this one!

Amerissa Giannouli—PhD Candidate @ University of Athens/[ICRE8](#)researcher

---

### Contents

#### **1. ICRE8 as UN SDSN Greek quarter**

Sustainable Development Solutions Network (SDSN)

Thematic Priorities of the UN SDSN GREECE

3rd international SDSN Mediterranean Conference

#### **2. EAERE 23rd International Conference 2017 organized by ICRE8 in Greece**

Keynote Speakers

Greek-AERAE (Greek Association of Environmental, Resource and Agricultural Economists)

#### **3. Quality of policy contribution award of the European Association of Agricultural Economics**

#### **4. New ICRE8 Collaborating Institutions, Researchers and Administrator**

#### **5. ICRE8 New Projects**

- Social Innovation in Marginalised Rural Areas (SIMRA)
- BRIdges the GAp for Innovations in Disaster resilience (BRIGRID)
- DAFNE (use of a decision-analytic framework to explore the water-energy-food nexus in complex and trans-boundary water resources systems of fast growing developing countries)
- SMIRES (Science and Management of Intermittent Rivers and Ephemeral Streams (IRES))

#### **6. ICRE8 Ongoing Projects**

#### **7. Past and Forthcoming Events**

#### **8. Recent and Forthcoming Publications**

## ICRE8 as UN SDSN Greek quarter

The Sustainable Development Solutions Network ([SDSN](#)) was launched in August 2012 by UN Secretary-General Ban Ki-moon with the scope to mobilize scientific and technical expertise from academia, civil society, and the private sector in support of sustainable development problem solving at local, national, and global scales. The SDSN aims to accelerate joint learning and help to overcome the compartmentalization of technical and policy work by promoting integrated approaches to advance solutions in sustainable development and to realize the SDGs.

The SDSN is building a network of universities, research centers, and other knowledge institutions. Members are organized around National or Regional SDSNs to promote Solutions Initiatives, develop educational materials for sustainable development, and contribute to setting the post-2015 agenda.

The Greek SDSN has been included in the SDSN network and it will cooperate with neighboring countries, which are also members of the network, aiming to contribute to achieving the goals of the SDSN network. Co-hosts of the Greek SDSN will be the International Centre for Research on the Environment and the Economy (ICRE8) and the University of Athens, Political Economy of Sustainable Development Lab. The executive council will be responsible for formulating the Greek Leadership Council that will consist of politicians, entrepreneurs, academics and representatives of the civil society. All members of the councils will be chosen upon recognition of their contribution towards fulfilling the Sustainable Development Goals (SDG) of the United Nations for 2030.

### Thematic Priorities of the SDSN Greece

- **Natural Capital Valuation: Ecosystems, Water and Biodiversity: Inland, Coastal, Ocean**

This priority is focused on “making nature’s values visible”. Its principal objective is to mainstream the values of biodiversity and ecosystem services into decision-making at all levels. It aims to achieve this goal by following a structured approach to valuation that can help decision-makers recognize, demonstrate and capture the values of water-related ecosystems and their biodiversity.

- **Sustainable Development and Financial Crisis**

The Greek SDSN aims to promote development-oriented policies that support productive activities, decent job creation, entrepreneurship, creativity and innovation, and encourage the formalization and growth of micro-, small- and medium-sized enterprises, including through access to financial services. Furthermore, policies that promote sustainable tourism that creates jobs and promotes local culture and products play an important role to escape the financial crises and are highly supported.

- **Climate Change: Mitigation and Adaptation Policies**

The Greek SDSN activities aim to integrate climate change solutions into national policies. Furthermore, there is a need to improve education and raise awareness with regards to climate change mitigation and adaptation, given the individuals and institutions’ actions.

It is important to denote that although the thematic cases that represent the Greek SDSN’s research concentration are linked to specific SDGs, they imply the realization of the rest of the SDGs.

**ICRE8 will also be responsible for hosting the 3rd international SDSN Mediterranean Conference, where the Greek SDSN will be officially launched.**

## EAERE 23rd Annual Conference (2017) @ Athens, Greece Organized by ICRE8!!!

Founded in 1990, the European Association of Environmental and Resource Economists ([EAERE](#)) has over 1200 members in 80 countries, from Europe and beyond, from academic institutions, the public sector, and the private industry. Interests span from traditional economics, agricultural economics, forestry, and natural resource economics.

- **Sir Prof. Partha Dasgupta** co-chairing with ICRE8 Scientific Director, Prof. Phoebe Koundouri
- EAERE 2017 Key Note Speaker: **Prof. Graciela Chichilnisky**
- EAERE 2017 David Pearce Lecture Key Note Speaker: **Prof. Karine Nyborg**
- EAERE 2017 Policy Key Note Speaker: **Maria Damanaki**
- EAERE 2017 Key Note Speaker: **Jeffrey D. Sachs** (*to be confirmed*)

During the EAERE 23rd Annual Conference 2017 in Greece ICRE8 will launch the establishment of the Greek Association of Environmental, Resource and Agricultural Economists ([Greek-AERAE](#)).

### Quality of policy contribution award of the European Association of Agricultural Economics

Prof. Phoebe Koundouri (AUEB, ICRE8, LSE) wins the Quality of policy contribution award of the European Association of Agricultural Economics.

The Board of the European Association of Agricultural Economists awarded Phoebe Koundouri's co-authored paper :

Genius, M., Koundouri, P., Nauges, C., & Tzouvelekas, V. (2014). Information transmission in irrigation technology adoption and diffusion: social learning, extension services, and spatial effects. /American Journal of Agricultural Economics/, ///96(1): 328–344/. the \*Quality of Policy Contribution Award\*, renamed in memory of our President, who suddenly died last July, the \*Quality of Policy Contribution Award in honor of Giovanni Anania\*, for 2014. The Award is announced on the EAAE Web-Pages and will be in the next Newsflash of the EAAE.

The [Board of the European Forest Institute \(EFI\)](#) made a decision on the appointment of Prof. Phoebe Koundouri as a **Member of the EFI Scientific Advisory Board (SAB)** at its meeting 28-29.9.2015 in St. Petersburg, Russia.

## NEW ICRE8 COLLABORATING INSTITUTIONS

ICRE8 has 8 more collaborating institutions

- [EEPSEA](#), Economy and Environment Program for Southeast Asia

- [BEF](#), Balkan Economic Forum, GREECE

- [EEDMI](#), İTÜ Deprem Mühendisliği ve Afet Yönetimi Enstitüsü, TURKEY

## NEW ICRE8 RESEARCHERS

We are welcoming our new researchers, **Ermina Sokou** and **Petros Xepapadeas**!!

## NEW ICRE8 ADMINISTRATOR

We are welcoming our new ICRE8 administrator,  
**Klea Morianou**!!

Klea Morianou is an Architect, graduate of the National Technical University of Athens. She also holds an MSc in Design & Environmental Analysis from Cornell University, College of Human Ecology

**\*PROJECTS\***

**ICRE8 has won three Interdisciplinary Projects and one Cost Action Project!**

**SIMRA (HORIZON 2020 Recent Funded Project, EC)**

SIMRA (Social Innovation in Marginalised Rural Areas) ‘s overarching objective is to fill the significant knowledge gap in understanding and enhancing social innovation in marginalised rural areas by advancing the state-of-the-art in social innovation and connected governance mechanisms in agriculture and forestry sectors and in rural development in general.

Coordinator:

James Hutton Institute

**BRIGAIID (HORIZON 2020 Recent Funded Project, EC)**

BRIdges the GAp for Innovations in Disaster resilience (BRIGAIID) aims to provide structural, ongoing support for innovations in climate adaptation by developing an innovative mix of methods and tools, that should become a standard for climate adaptation innovations.

Coordinator:

Technische Universiteit Delft

## DAFNE (HORIZON 2020 Recent Funded Project, EC)

The overall objective of DAFNE (use of a decision-analytic framework to explore the water-energy-food nexus in complex and trans-boundary water resources systems of fast growing developing countries) is to establish a decision-analytic framework (DAF) for participatory and integrated planning. The DAF is a multi-step procedure that will enable the extensive, quantitative analysis of the anticipated effects of alternative planning options on the broad range of heterogeneous and often competing interests in transboundary river basins, ultimately facilitating comparison and negotiation based on:

- (a) active engagement of stakeholders in the process from the outset of the project, and
- (b) integration of multiple and diverse international and local academic expertise ranging from natural sciences, water engineering, and environmental economics, to water governance and laws in order to develop tools to facilitate social understanding of the impact and support comparative analysis of the alternative through negotiations.

Coordinator: Swiss Federal Institute of Technology, Switzerland

**ETH** zürich

## SMIRES (COST Action)

SMIRES (Science and Management of Intermittent Rivers and Ephemeral Streams (IRES)) will bring together hydrologists, biogeochemists, ecologists, environmental economists, social researchers and stakeholders from 14 different countries in order to develop a research network for synthesizing the fragmented and recent knowledge on IRES, thus improving our understanding of IRES ecology and translating this into science-based, sustainable management of river networks.

Coordinator: Institut national de recherche en sciences et technologies pour l'environnement et l'agriculture

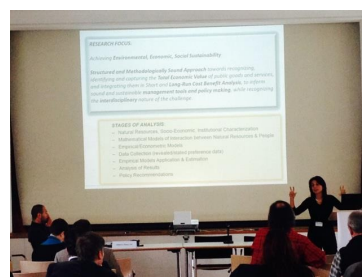

## GLOBAQUA (EU-FP7, 9,990,594.80 euro): <http://www.globaqua-project.eu/>

GLOBAQUA (Managing the effects of multiple stressors on aquatic ecosystems under water scarcity) has assembled a multidisciplinary consortium in order to study the interaction of multiple stressors within the frame of strong pressure on water resources. GLOBAQUA assesses the effects of water scarcity on aquatic ecosystems by focusing on six river basins (Ebro, Adige, Sava, Evrotas, Anglian and Souss Massa). These basins encompass a rich set of socio-ecological conditions and a wide geographic coverage, and focus on a specific set of stressors to illustrate different management scenarios. GLOBAQUA aims to achieve a better understanding on how current water management practices and policies could be improved by identifying their main drawbacks and alternatives. ICRES Team at the ATHENA RC responsibilities include the analysis of the socio-economic implications of the effects of impacts on water quality and availability, as well as on biodiversity and ecosystem functioning, by translating the information gathered into ecosystem services, and investigating the effects on the socio-economic development.

- 22-23 October, 2015: 4th International Symposium "Effect-related evaluation of anthropogenic trace substances - concepts for genotoxicity, neurotoxicity and endocrine effects" in Aachen [[Flyer](#)]
- 26-27 November, Barcelona, Spain: Short Course on Rapid Screening of Aquatic Organic Pollution and Toxicity using Bioassays and Biosensors [[Information](#)]
- 11-12 January 2016, Freising, Germany - 1st GLOBAQUA International Conference  
Prof. Phoebe Koundouri and Ioannis Souliotis participated in the event.

[Event](#) information. Conference [Program](#) and Project assembly [agenda](#).

Conference presentation: "[Identifying, Measuring & Integrating Total Economic Value in River Restoration Management](#)" Project Assembly presentations: [Presentation 1](#), [Presentation 2](#)

**MERMAID (EU-FP7, 7,400,000 euro) :**  
<http://www.mermaidproject.eu/>

The MERMAID (Innovative multi-purpose offshore platforms: planning, design and operation) project, consisting of a consortium of 28 partners, will develop concepts of next generation offshore platforms for multi-use of ocean space for energy extraction, aquaculture and platform related transport. The project does not envisage building a new platform but aims at examining different concepts, such as a combination of structures or complete new structures on representative sites under different conditions. ICRE8 at the AUEB has provided a methodology for integrated Socio-Economic assessment of offshore platforms, facilitating the implementation of the Marine Strategy Framework Directive. This methodology takes into account legal and technical constraints, environmental issues and socio-economic impacts of the platforms apart from financial aspects of their construction and operation.

### 15.12.2015: MERMAID End Users Conference, Copenhagen, Denmark

A successful end users conference for our MERMAID FP7 European Commission project took place at the Technical University of Denmark. Prof Phoebe Koundouri, Evita Mailli and Amerissa Giannouli participated in the event. Check our presentation and socio-economic results [here](#).

You can read the MERMAID [Project Book](#) and get an overview of our [assessment tool](#).

**CIGESMED:** <http://www.cigesmed.eu/>

CIGESMED's goal is to understand the links between natural and anthropogenic pressures and ecosystem functioning to define and maintain the Good Environmental Status (GES) of the Mediterranean Sea by studying the typical, complex and not well known habitats built by calcareous encrusting algae, the coralline. ICRE8 participates as an expert partner.

### World Bank Mission: Determining the Discount Rate for Government Projects: Consultation to the Government of Ukraine and Moldova

Governments are committed to continuing improvement in the delivery of public services. A major part of this is ensuring that public funds are spent on activities that provide the greatest benefits to society, and that they are spent in the most efficient way. To ensure efficient allocation of funds the public sector needs to evaluate the costs and benefits of past, present and future activities (policies, programs and projects) intertemporally. One crucial element in this cost-benefit evaluation is the choice of the short and long-run interest rates to be used: an issue that attracted the interest of most 'great economists'. This project concerns a critical state-of-the-art review of the underlying literature, identification of most appropriate method to applied for the case of Ukraine and Moldova and empirical application of this method, to estimate the optimal dynamic path of the interest rate to be used for by the Ukrainian and Moldovan Public Sector.

The World Bank

Prof Koundouri contributed to relevant consultations for the following governments: Cyprus, UK, USA and many others over the last 20 years.

#### Consultation to the Government of Ukraine (August 25-27, 2015)

[\[Presentation\]](#)

#### Consultation to the Government of Moldova (October 20-21, 2015)

[\[Presentation\]](#)

## September 2015: Ten Years after Pearce David Pearce Memorial Workshop

ICRE8 scientific director, Phoebe Koundouri and ICRE8 Researcher Dr. Panayiotis Samartzis participated in this workshop that marked David's impact on our profession, where it was discussed how environmental economics and environmental policy have evolved over the past decade. Prof. Koundouri was invited to give a presentation in the event.

See the program [here](#).

[\[Presentation\]](#)

## September 2015: United Nations Sustainable Solutions Network

Prof. Phoebe Koundouri, in her capacity as Co-Chair of United Nations Sustainable Development Solutions Network (UN SDSN) Greece, participated in the SDSN Leadership Council Meeting at Columbia University and various other meetings of the UN Sustainable Development Summit, 23-25 September, 2015, United Nations Headquarters, New York, USA.

The Greek SDSN will be participating in meetings organized by the Mediterranean participants of the network, focusing on issues such as the implementation of SDGs in Mediterranean area, raising awareness on SDGs in order to influence Mediterranean policy makers, collecting and fostering existing solutions initiatives and best practices in the Region. The Greek SDSN will be undertaking research and providing solutions to problems related to impediments towards sustainable development in the region. In line with this, knowledge dissemination will be one of the main tools to tackle local issues. For this to be realized, the Greek SDSN will work with governmental bodies in diagnosing local, national and regional sustainable development challenges and designing long-term strategies. SDSN Greece will also be responsible for hosting the 3<sup>rd</sup> international SDSN Mediterranean Conference.

### October 2015: Crete – IDEA Workshop

Prof. Phoebe Koundouri (ICRE8 Scientific Director) and Ioannis Souliotis (ICRE8 Researcher) participated in the Crete IDEA workshop in Crete. See presentation [here](#).

The [Crete IDEA workshop](#) addressed the challenges for a long term, extensive and in depth digitization and global modeling of life in Crete. The experience and paradigm of Moorea IDEA project (<http://mooreaidea.org/>) was an inspiration for building a Crete IDEA project.

### November 2015: Annual Balkan Economic Forum Conference – Athens, Greece

Prof. Phoebe Koundouri (ICRE8 Scientific Director) was a guest speaker at the session entitled "Balkan Economic Development Outlook" at the annual Balkan Economic Forum conference, at the American School of Classical Studies. More details can be found [here](#).

### November 2015: JPI Climate Outreach and Engagement Workshop—Venice, Italy

Ioannis Souliotis (ICRE8 Researcher) participated at JPI Climate Outreach and Engagement Workshop [[Invitation Letter](#)]. He also attended a seminar on cooperation and climate change, given by Marco Casari, at the University of Bologna @ FEEM.

### November 2015: PRIMA—Brussels, Belgium

Prof. Phoebe Koundouri (ICRE8 Scientific Director) participated in PRIMA Expert Group at the headquarters of European Commission in Brussels. PRIMA is a joint programme, which is an integrated programme on food systems and water resources for the development of inclusive, sustainable and healthy Euro-Mediterranean societies.

### December 2015: DG Research and Innovation Funds between Horizon 2020 and other Initiatives—Brussels, Belgium

Phoebe Koundouri, ICRE8 Scientific director, participated in a European Commission Meeting about the allocation of DG Research and Innovation Funds between Horizon 2020 and other Initiatives.

### January 2015: 2nd International Symposium on GREEN ENERGY FOR A SUSTAINABLE FUTURE, Asthra 2016

Phoebe Koundouri, ICRE8 Scientific director, gave a keynote speech at the 2nd International Symposium on GREEN ENERGY FOR A SUSTAINABLE FUTURE, Asthra 2016, Amrita School Of Business, Kochi, INDIA.

The title of the speech: [Economics In Shaping up Coastal Management: Nature, People and Institutions](#)

The primary goal of this Symposium was to bring together thought leaders, professionals and eminent research scholars around the globe under one roof to discuss about the relevance of Clean, Safe and Renewable sources of energy and also to acquire actionable insights to reduce energy footprint in all walks of life, thus paving way to a sustainable future.

## Forthcoming Events

- Prof. Phoebe Koundouri was invited to talk about the "Implications of Deep Uncertainty for Climate Change Policy" at Nova School of Business and Economics (Lisbon, Portugal) in Spring 2016!

- Prof. Phoebe Koundouri and Prof. Christian Gollier's will chair policy session on the Social Discount Rate for Assessing Environmental Policy: From Theory to Policy Implications at EAERE 2016! Read the proposal [here](#).

- ICRE8 Scientific Director, Prof. Phoebe Koundouri is going to give a key note speech at the "Workshop on non-market valuation" (WONV4) in June 2016 (France). For more information follow this [link](#).
